16 June 1976

MEMORANDUM FOR: Mr. Knoche

25X1 SUBJECT : [redacted] Appointment, Chapter II

1. I think we are at last squared away on this. The DDO at this time has a limit on their supergrade totals. Approving [redacted] appointment per the attached memo is not tantamount to raising the limit by one; and as I previously indicated, the whole DDO supergrade structure will come up for review and approval before the Supergrade Board in the near future. 25X1

2. However, you should recommend to the DCI that in approving the appointment, the Director specify that he does so with the proviso that the grade level for this position be established by the Office of Personnel after appropriate review. It thus is made clear the DCI is approving the man, not the grade, for the position.

25X1 3. Sources for above are [redacted] 25X1
